EDA Summary

Recommendations

Problem Statement –G2M(cab industry) case study

- XYZ is a private firm in US. Due to remarkable growth in the Cab Industry in last few years and multiple key players in the market, it is planning for an investment in Cab industry and as per their Go-to-Market(G2M) strategy they want to understand the market before taking final decision.
- Objective: Provide actionable insights to help XYZ identify the right company to make their investment.

Approach –G2M(cab industry) case study

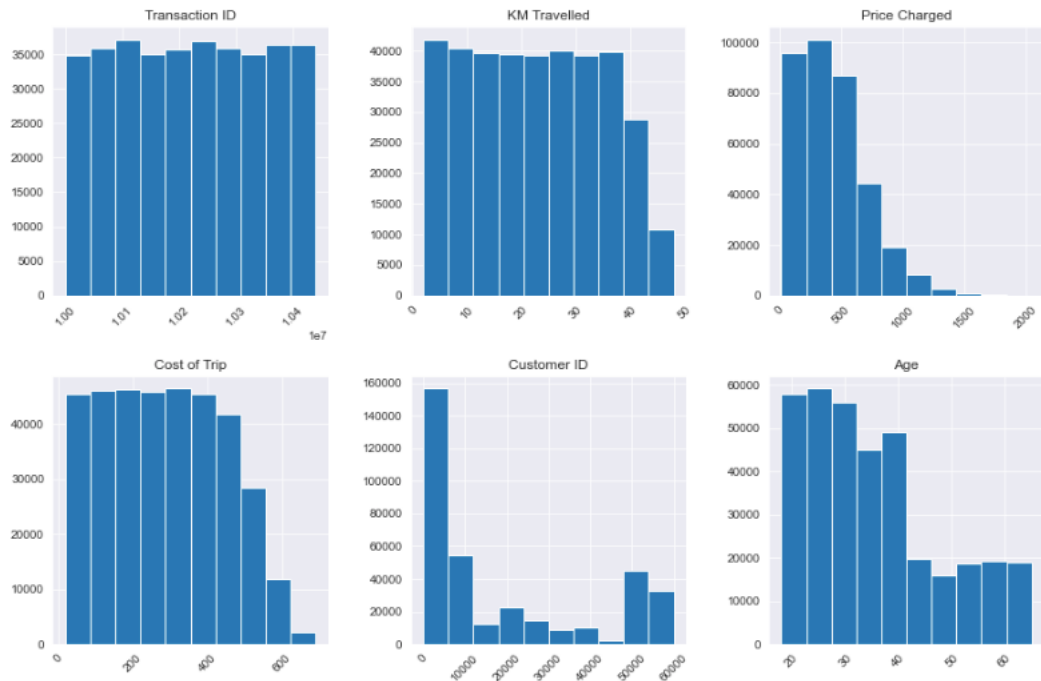

- Exploratory Data Analysis
 - Data Understanding
 - Numeric Features
 - Categorical Features
 - Profit Analysis
 - Forecasting

EDA –Data Understanding

- Main.csv = Cab_Data.csv + Customer_ID.csv +Transaction_ID.csv + City.csv
- 15 unique columns including calculated Profit and Date converted to datetime
- There are 24819 outliers where the cost of the trip exceeds the price charged. Ignored due to lack of trip duration information
- No NaN Values detected
- Data Types:

City	object
Population	object
Users	object
Transaction ID	int64
Date of Travel	datetime64[ns]
Company	object
KM Travelled	float64
Price Charged	float64
Cost of Trip	float64
Customer ID	int64
Gender	object
Age	int64
Income (USD/Month)	int64
Payment_Mode	object
dtype:	object

EDA – Numeric Features

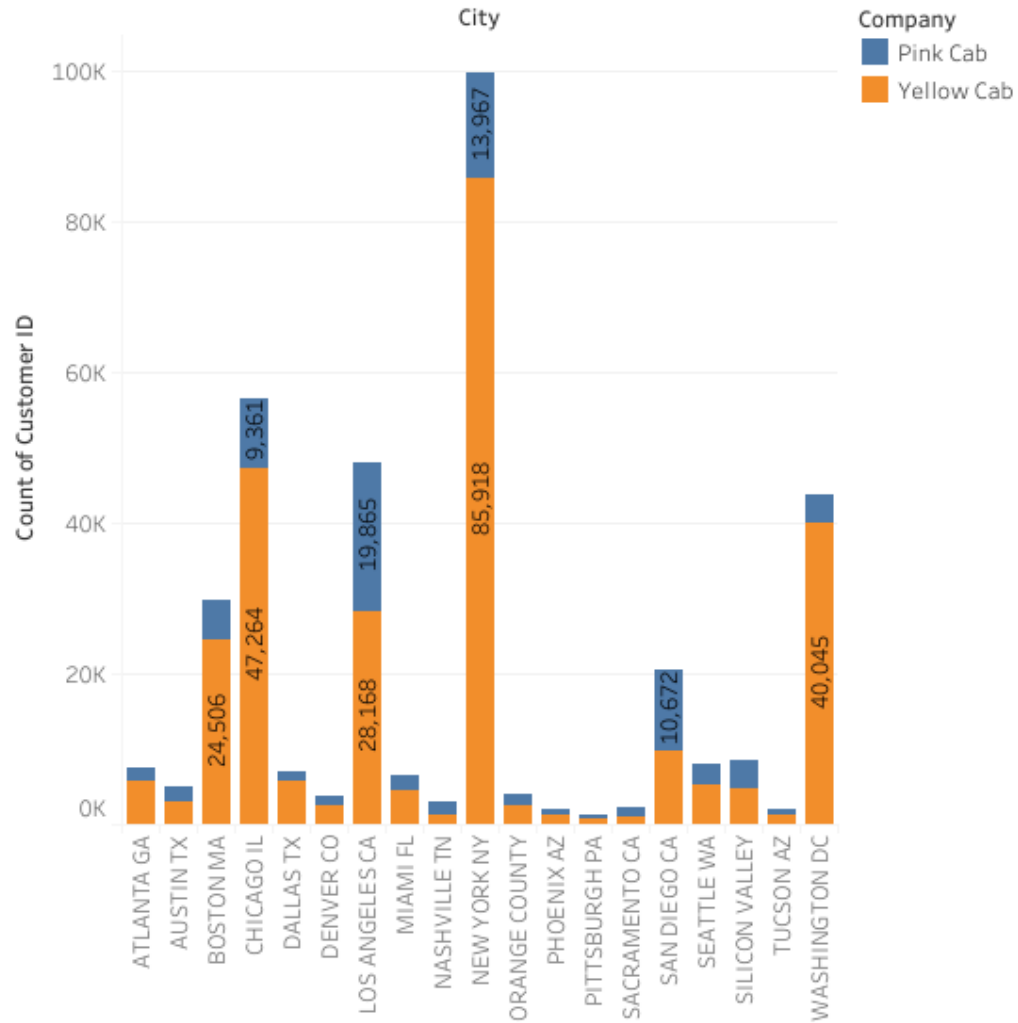

- Histograms aid in outlier identification/mistyped objects
- These histograms look as expected
- Summary statistics for numeric objects does little for company comparison but aids in understanding customers and trips

	Transaction ID	KM Travelled	Price Charged	Cost of Trip	Customer ID	Age	Income (USD/Month)
count	359,392.00	359,392.00	359,392.00	359,392.00	359,392.00	359,392.00	359,392.00
mean	10,220,761.19	22.57	423.44	286.19	19,191.65	35.34	15,048.82
std	126,805.80	12.23	274.38	157.99	21,012.41	12.59	7,969.41
min	10,000,011.00	1.90	15.60	19.00	1.00	18.00	2,000.00
25%	10,110,809.75	12.00	206.44	151.20	2,705.00	25.00	8,424.00
50%	10,221,035.50	22.44	386.36	282.48	7,459.00	33.00	14,685.00
75%	10,330,937.25	32.96	583.66	413.68	36,078.00	42.00	21,035.00
max	10,440,107.00	48.00	2,048.03	691.20	60,000.00	65.00	35,000.00

EDA – Categorical Features

Number of Users per City

Payment Method Usage by Year

	City	Population	Users	Company	Gender	Payment_Mode
count	359392	359392	359392	359392	359392	359392
unique	19	19	19	2	2	2
top	NEW YORK NY	8,405,837	302,149	Yellow Cab	Male	Card
freq	99885	99885	99885	274681	205912	215504

- Summary statistics for numerical objects shows that Yellow Cab is the top company with NYC being the top city
- Further, card is the most frequently used method of payment and men ride more than women

EDA- Profit Analysis

Profit Total Rides Profit per Ride

Company

Pink Cab	5,307,328.32	84711	62.65
Yellow Cab	44,020,373.17	274681	160.26

- Yellow Cab's profits far exceed Pink Cabs
- Women are slightly more inclined to use Pink Cab

Profit Share by Gender

EDA- Profit Analysis

Customers vs. KM Traveled

- Yellow cab preferred greatly for long trips
- Less variance in number of customers/trip size for Yellow Cab
- Majority of trips between 5-35 KM

EDA- User Data

Number of Customers
Per Year by Company

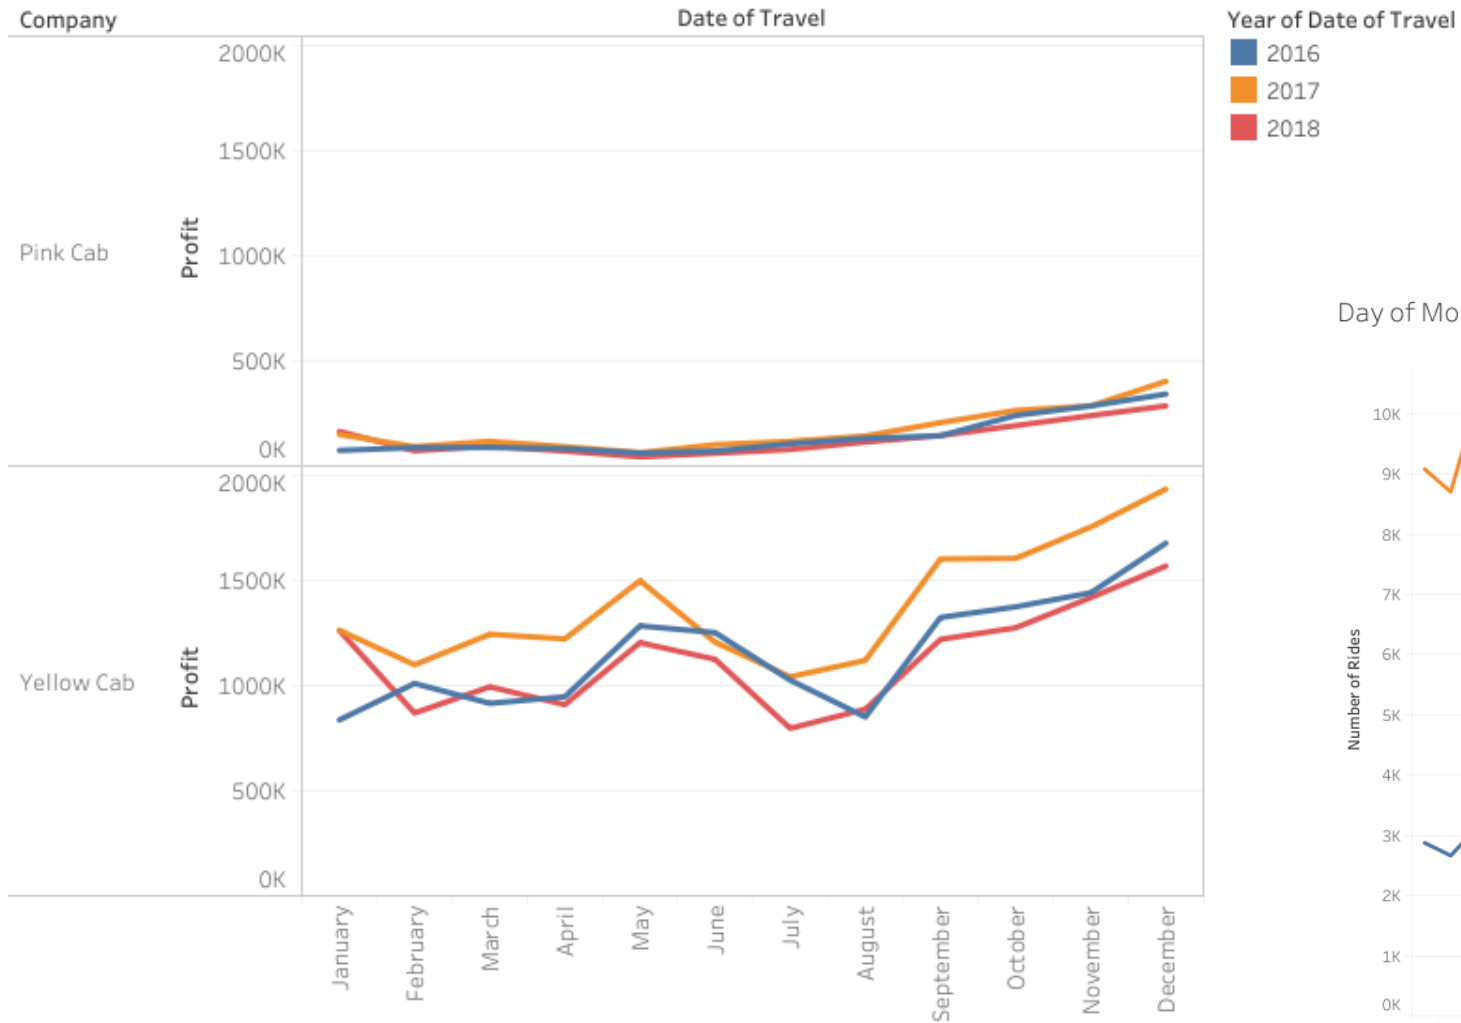

Number of Rides per Year

- Yellow cab has more customers/rides per year

EDA- Seasonality

Seasonality

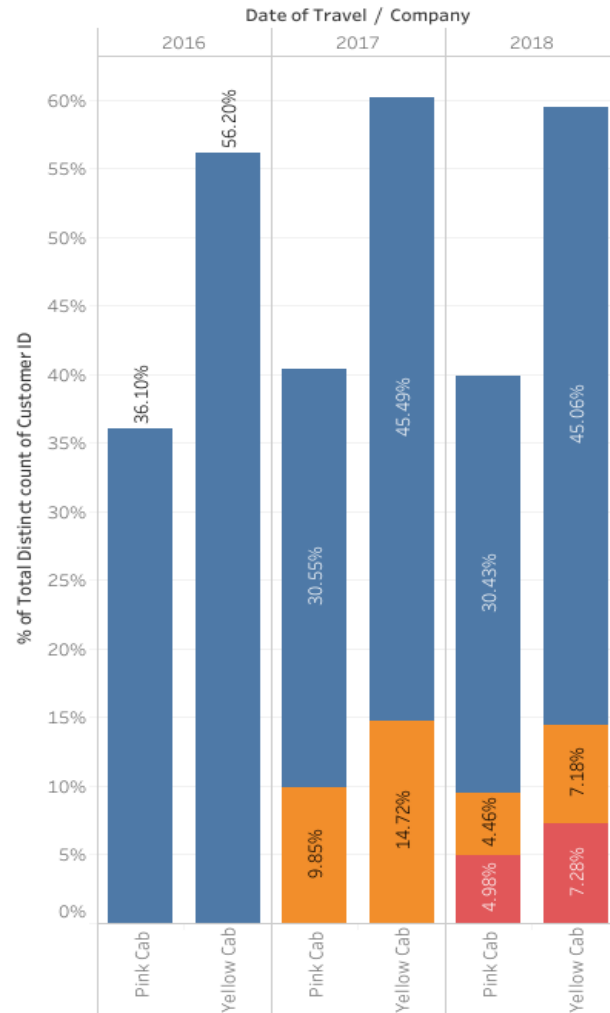

- Increase in cab usage around holiday months

Day of Month vs. # of Rides

EDA- Customer Retention

Customer Growth

Customer Retention

- Growth in 2017 is balanced by loss in 2018 with the majority of users retained from 2016
- ~25% of customers in 2016 do not return while over half of customers in 2017 do not return the following year

EDA- Forecasting

Rides Forecasting

Profit Forecasting

- Projected decrease in both profit and number of rides for both companies
- Pink cab sees greater loss

Recommendations –G2M(cab industry) case study

- **Customers:** Yellow Cab has more customers and a higher reach than Pink Cab
- **Profit:** Yellow Cab has larger yearly profits/profit per KM
- **Customer Retention:** less new customers retained each year
- **Gender Analysis:** Women are slightly more inclined to use Pink Cab
- **Forecasting:** Both companies are projected to see loss in # of rides and profit- could be a result of a shift towards app-based rides
- **Recommendation:** Due to greater profits, higher reach, and less anticipated loss, Yellow Cab is the recommended company for investment

Thank You
